

TOP 5 REASONS to Move to Act! in the Cloud

01

Act! Premium Cloud offers all the benefits of an online solution – with the option to continue to use and sync data to and from the familiar Act! desktop solution you know and love. Best yet, you'll retain your customisations and can continue to use key add-on products.

03

Automatic nightly backups ensure your data is protected at all times and that you're covered in the event of an unplanned outage or disaster.

05

With an Act! subscription, you'll always have access to the newest features and compatibility updates, integrated marketing automation, online resources, and expert technical support.

Instant online access and automatic upgrades ensure you get and stay productive. We take care of the technical details, so you can focus on your business and customers.

02

Act! Premium Cloud is hosted on the Amazon Web Services (AWS) platform for best-in-class performance, security, and reliability.
